Train to Teach at The Forest School

The Forest School

ABOUT US

At The Forest School we consider ourselves to be The Forest Family. You will find us to be a welcoming and professional environment where relationships are the cornerstone of our community. We are an 11-16 community school, with nearly 1100 students on roll from a broad range of backgrounds and abilities.

Our Forest 5 values of Productive; Proud; Polite; Prepared and Prompt mean a great deal to us and they permeate everything that we do. The Forest School provides a very good learning experience for all of our students and we have very high expectations within a caring and safe school environment.

At the Forest School we foster and celebrate inclusive practices to ensure our students make excellent progress and to build self esteem. Our students are at the centre of our curriculum decisions, and we provide many opportunities for them to have a powerful voice about the way the school supports their needs, both through curricular and extra curricular activities. We want to create successful learners who enjoy learning, make good progress, achieve their potential and are prepared for the next stage of their education and for a successful adult & working life.

Our staff are an equally important part of making the school a great place to learn. Our newly qualified teachers and trainees are extremely important to us and we strive to support their personal & professional development. Our staff are supportive, collaborative, professional and enjoy working together.
